ORIZONT

Il fascino delle linee classiche

ORIZONT è una linea di piccoli espositori orizzontali, nata per completare e/o implementare i banconi bar.
La gamma Orizont comprende tre espositori a temperatura positiva (**100 Q, 150 Q, 200 Q** con capacità di 100, 150 e 200 litri rispettivamente), un espositore self service a temperatura positiva (**200 Q SS**), un espositore negativo (**200 GBT**), un espositore neutro (**200 Q Neutral**) e addirittura un espositore riscaldato (**202 Q Hot**).
Tutti questi prodotti sono riconoscibili dall'inconfondibile profilo curvo Tecfrigo, nei classici ed eleganti colori bronzo e argento. Per rendere speciale il vostro espositore, comunque, tutte le vetrine sono personalizzabili a richiesta con una vasta scelta di colori RAL.

ORIZONT 200 Q SS

The charm of classic design

ORIZONT *is a line of small horizontal exhibitors, born to complete and/or implement bar counters.*
*The Orizont range includes three positive temperature exhibitors (**100 Q, Q 150, Q 200** with a capacity of respectively 100, 150 and 200 liters), a self-service positive temperature displayer (**200 Q SS**), a negative displayer (**200 GBT**) , a neutral displayer (**200 Q neutral**) and even a heated displayer (**202 Q Hot**).*
All these products are recognizable by the unmistakable curved Tecfrigo profiles, available in the classic and elegant bronze or silver colors. However, to make them special, all the exhibitors are customizable on request with a wide range of RAL paintings.

Nuova vetrina "Full-Glass" per bibite

La nuova vetrina ventilata per bibite **DRINK 360 FG**, è ideale per l'immagazzinamento di lattine e bottiglie. Le sue linee eleganti permettono l'utilizzo in una vasta gamma di applicazioni del settore alberghiero e della ristorazione.

Efficiente illuminazione LED

L'illuminazione a LED crea una grande visibilità dei prodotti immagazzinati. In combinazione con il refrigerante R600a questa vetrina rappresenta una delle migliori proposte ad alta efficienza energetica presenti sul mercato.

Ripiani regolabili

I ripiani solidi e regolabili facilitano il posizionamento stabile dei contenuti.

Esclusivo design interamente in vetro.
Compressore a bassa vibrazione.

New "Full-Glass" cabinet for drink storage

*The new ventilated drink cooler, **DRINK 360 FG**, is the perfect way to store cans and bottles. Its elegant design makes it suitable for a wide range of applications in hotel and restaurant sector.*

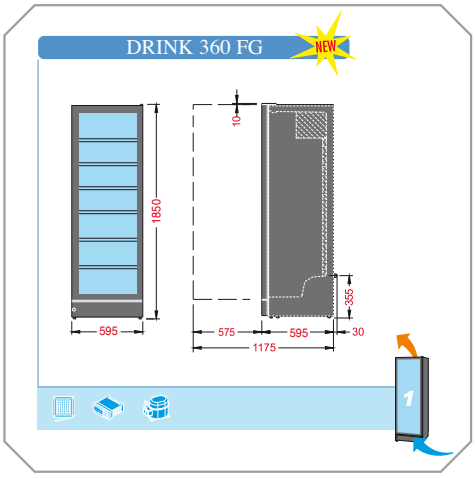

Efficient LED lighting

The LED lighting allows a great visibility of products stored. Combined with refrigerant R600a, it currently represents one of the most energy-efficient units available on the market.

Adjustable shelves

The solid and adjustable shelves facilitate stable placement of contents.

Exclusive full-glass design.
Low vibration compressor.

De série: compresseur, condensateur, carter de protection du groupe de réfrigération avec grilles d'inspection en acier verni, récipient et protection externe en acier inox, évaporateur baigné dans le polyuréthanique du récipient, panneau électrique avec boutons de commandes et thermostat digital, chargement optimal de gaz R 134, contrôle en chambre technique, robinet d'évacuation du récipient.

Aufbau mit Kühlaggregat
Serienausstattung: Kompressor, Kondensator, Schutzgehäuse Kühlaggregat mit Inspektionsgitter aus lackiertem Stahl, Wanne und Außenmantel aus INOX-Stahl, Verdampfer im Polyurethan der Wanne eingebettet, Elektrische Schalttafel mit Steuerknöpfen und digitalem Thermostat, optimale Gasladung R 134, Test in Temperaturkammer, Wanne mit Abflusshahn.

Chasis con grupo refrigerador.
De serie: Compresor, condensador y cárter de protección grupo refrigerador con rejilla de acero esmaltado para la inspección, bandeja y carcasa exterior de acero inox, evaporador sumergido en el poliuretano de la bandeja, panel eléctrico con pulsadores de comando y termostato digital, carga optimizada con gas R 134, prueba en cámara térmica, Llave de descarga de la bandeja.

Scocca con gruppo UMC.
Di serie: vasca e involucro esterno in acciaio inox, evaporatore annegato nel poliuretano della vasca, pannello elettrico con pulsanti di comando e termostato digitale, rubinetto di scarico vasca.
Optional: valvola termostatica.
Accessori: gruppo UMC (compressore, condensatore), supporto in lamiera zincata, carica ottimale di gas R 134, collaudo in camera termica.

Body with UMC unit.
Standard: stainless steel tank and external body, evaporator sunk into the tank polyurethane, electrical control panel with control buttons and digital thermostat, tank drainage valve.
Options: thermostatic valve. Accessories: UMC unit (compressor, condenser), galvanised steel sheet support, optimal load with R 134 gas, tested in thermal chamber.

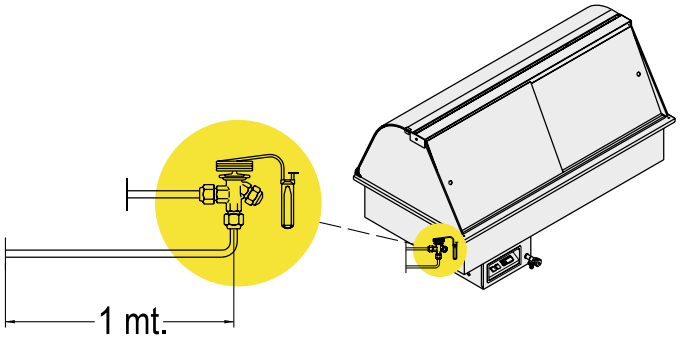

Coque avec groupe UMC.
De série: récipient et protection externe en acier inox, évaporateur baigné dans le polyuréthanique du récipient, panneau électrique avec boutons de commandes et thermostat digital, robinet d'évacuation du récipient.
Options: valve thermostatique. Accessoires: groupe UMC (compresseur, condensateur), support en tôle galvanisée, chargement optimal de gaz R 134, contrôle en chambre technique.

Aufbau mit UMC-Aggregat
Serienausstattung: Wanne und Außenmantel aus INOX-Stahl, Verdampfer im Polyurethan der Wanne eingebettet, Elektrische Schalttafel mit Steuerknöpfen und digitalem Thermostat, Wanne mit Abflusshahn.
Optionals: Thermostatisches Ventil. Zuberhör: UMC-Aggregat (Kompressor, Kondensator), Ständer aus verzinktem Blech, optimale Gasladung R 134, Test in Temperaturkamme.

Chasis con grupo UMC.
De serie: bandeja y carcasa exterior de acero inox, evaporador sumergido en el poliuretano de la bandeja. panel eléctrico con pulsadores de comando y termostato digital, Llave de descarga de la bandeja.
Opcional: Válvula termostática. Accessorios: Grupo UMC (compresor, condensador), soporte de chapa galvanizada, carga optimizada con gas R 134, prueba en cámara térmica.

Scocca senza gruppo refrigerante SG.
Di serie: vasca e involucro esterno in acciaio inox, evaporatore annegato nel poliuretano della vasca, pannello elettrico con pulsanti di comando e termostato digitale, rubinetto di scarico vasca. Optional: valvola termostatica.

Body without SG refrigerating unit

CI SONO ALMENO 10 MOTIVI PER SCOPRIRE GIROTONDO:

• *Girotondo è modernità:* i nostri progettisti hanno tratto ispirazione dalle meraviglie dell'architettura contemporanea per creare un'opera d'arte per la ristorazione. Design e creatività italiani, made in Tecfrigo.
• *Girotondo è rivoluzionaria:* per la prima volta in un buffet la superficie espositiva può ruotare elettricamente, regalando ai vostri clienti una visione sempre diversa, al ritmo di un giro ogni sei minuti.
• *Girotondo è completa:* kit accessorio di ben 20 vaschette in PETG, per una varietà di servizio formidabile e una capacità netta di ben 145 litri.
• *Girotondo è sfruttabile:* confrontandola con una macchina tradizionale, a parità di perimetro di accesso, è più grande e ha il 25% di superficie espositiva in più.
• *Girotondo è completamente automatica*, con azionamenti intuitivi mediante centralina touch screen retroilluminata.
• *Girotondo è intelligente*, perché dotata di 4 motori auto registranti adattativi: rilevando il carico, ottimizzano la trazione e, in caso di blocco meccanico intenzionale, impediscono i danneggiamenti smorzando la trasmissione della coppia.
• *Girotondo è efficiente*, infatti, grazie alla sua simmetria assiale, la ventilazione è omogenea. I vostri prodotti saranno sempre perfetti.
• *Girotondo è attrattiva:* la cappa termoformata in PMMA è dotata di sollevamento motorizzato. Il telaio inoltre è disponibile in diverse colorazioni e personalizzazioni, per abbinarsi ad ogni tipo di locale.
• *Girotondo è luminosa:* le numerose superfici trasparenti, comprese quelle delle vaschette di nuova concezione, non hanno paragoni. E se la luce naturale non fosse sufficiente, basta accendere i led tangenziali.
• *Girotondo è ecosostenibile:* è realizzata quasi interamente con materiali riciclabili e adotta tutte le misure necessarie per risparmiare energia.

Versione Pasticceria / *Pastry version*

THERE ARE AT LEAST 10 REASONS TO DISCOVER GIROTONDO:

• *Girotondo is modernity:* our designers drawn inspiration from contemporary architecture wonders, to create a work of art for catering-industry. Italian design and creativity, made in Tecfrigo.
• *Girotondo is revolutionary:* for the first time in a buffet the exhibition area can rotate electronically, giving to your costumers an always different view, at the rate of one round every six minutes.
• *Girotondo is complete:* accessory kit for n° 20 PETG basins, for an excellent variety of service and a net capacity of 145 litres.
• *Girotondo is exploitable:* it is bigger, compared with a traditional machine, at constant perimeter of access, it has a 25% of exhibition surface more than other products.
• *Girotondo is totally automatic:* with intuitive operations by means of the backlit touch screen control panel.
• *Girotondo is clever*, equipped with 4 adaptive self-adjusting engines: registering the load, they optimize the traction and do not allow damages, damping the shaft couple. This in the case of intentional mechanical stoppage.

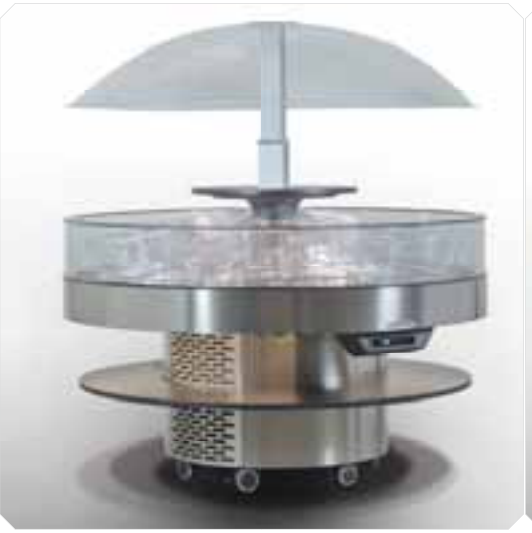

• *Girotondo is efficient:* the ventilation is homogeneous, thanks to its axial symmetry. Your products always will be perfect.
• *Girotondo is attractive:* the thermoformed cover in PMMA is equipped with automatic lifting. The frame is also available in several colours and customizations, for to go with all types of room.
• *Girotondo is bright:* the several transparent surfaces, included those of the new basins, are beyond comparison. And if the natural light is not enough, just turn-on the LEDs lighting.
• *Girotondo is Eco-Friendly:* it is made almost entirely from recyclable materials and adopts all necessary measures to save energy.
